Wednesday Evening Ride

We started with about 10 riders at 6.30pm, but I am going to be a bit vague about how many there were at the 8.30pm finish. If you are wondering why have a look at the photo. Yes lights really are necessary!!

The route on this great fresh evening was Rudding Lane, Follifoot, Spofforth, and down the cycle path to Wetherby. Returning to Knaresborough via Little Ribston the sunset was fantastic. We turned along Abbey Road and then up Forest Moor Road. It was good to some new faces, who kept on the pace for 18 miles on this brisk ride on a cool evening.

Next week will be the last Wednesday Ride as it is now getting too dark.
