Wednesday Rides

Wednesday morning rides are clearly a winner with 16 turning up at Hornbeam and seven or eight at Low Bridge. A big welcome again to our newer riders. The Poddlers set off I think led by Dennis who took the group on a familiar route but reached from less familiar directions. They cycled to Goldsborough and ended up in Markington and Ripley. The EG's didn't fancy Easingwold as they had ridden there last week but Martin was hungry for a Tea Hee café experience and the rest of us did not need much persuading. We were not disappointed enjoying delicious tea, coffee and cakes. Malcolm Y, who was out for a canter, followed the EG's to Wetherby then joined us having done a much longer route and announced that Malcolm M was also on his way.

We left Tea Hee just before the lunchtime rush and headed back at some pace to Harrogate and into a fantastic hailstorm just outside Knaresborough where we all got thoroughly soaked. No doubt there will be many new purchases being made in the next few days! But we all survived, rode an excellent 50 miles and most made it to the AGM in the evening.

By the way Timble Village Hall have called to ask if we are going to their coffee morning next week, Wednesday November 11th. I do not think that we should feel obliged to go each month but if anyone fancies working it in to the ride on the day, then I should let them know. Gia
