## Wheel Easy Ride Report 318

### Wheel Easy Ride Report

Heavy rain confronted the riders on Diamond Jubilee morning, the long ride to Littondale was postponed until Monday when better weather is hoped for. Dennis very kindly offered to lead a short ride of 10 (fool)hardy riders . As usual he managed to find an unusual route even on our exit from Harrogate via cycle paths and roads though Bilton to Knox uncharted territory for many. On to Ripley via Killinghall and then to Brearton, Scotton, Lingerfield and Knaresborough. Dennis and Alison were not in coffee mode but 7 riders adjourned for a soggy seat in a cafe on Waterside. We decided that any hot beverage would do as long as one could wrap cold wet fingers around the cup. Eric and Di opted for a magnificent hot chocolate topped with large amounts of cream, marshmallow and chocolate - see attached photo. 17 soggy miles good cheerful Wheel Easy company as ever. Sue C
