Wheel Easy Ride Report 508

Short Ride

Little Ribston, Abbey Road. There were 3 of us with commitments later in the day. Corinne and Dave were happy with a reasonable pace, so the 3 of us managed a brisk ride on a familiar short route, arriving at Riverside Cafe before 11am. Dry, overcast - but good to be out, and thanks for the excellent company. Justin

Medium Ride

If your eyesight's good you can see today's medium ride held up by a herd of deer sprinting across our path. Paul B

Medium+ Ride

Long Ride

7 left Hornbeam (including 2 riders new to the long ride) on a planned re-run of a ride from 2 weeks ago – the cote de Blubberhouses. The original ride ended prematurely for the ride leader when his back tyre exploded on Penny Pot Lane, so hoping to avoid punctures around the tip, I elected to go via little Almscliffe. Unfortunately, just after passing through Beckwithshaw my rear wheel broke resulting in an almost un-rideable bike. Consequently there can be no ride report but I understand the weather was fine, the views along Wharfedale were fantastic, there was almost no traffic and everyone had a wonderful time. Phil S.
