Opening Sustrans route extension Wetherby to Thorp Arch

Bill and Gia represented Wheel Easy! and Harrogate Cycle Group at the official opening of the new section of National Cycle Route 66, the Wetherby to Thorp Arch railway path. John Grimshaw, Chief Exec of Sustrans was there welcoming everyone including about 80 children on their bikes. The rain held off long enough for the ride from Wetherby to Thorp Arch and the deputy leader of Leeds City Council (who have supported the project) cut the tape. Do try to use this new section which will remind you of the excellence of Sustrans and of what can be achieved with the help of the local authority and willing landowners, who also attended the opening. Nidd Gorge to Ripley is our goal, keep up with the lobbying. GM
